A Big Thank You to Our Chiefs!

Vatsal Patel, MD, PGY-III

JT Kim, MD, PGY-III

Good Luck to our New Chiefs

Jorge Trejo, MD, PGY-II

Wes Hiser, MD, PGY-II
A New Program Director for a New Era: Dr. Anthony Yachnis

It is with great pleasure that we welcome Dr. Anthony Yachnis, M.D. as our new Residency Program Director! Following Dr. Lisa Dixon’s appointment to associate dean for graduate medical education, and Dr. Christopher Carter’s departure to Nationwide Children’s Hospital in Ohio, we are excited to have Dr. Yachnis take the helm of our residency program.

Dr. Yachnis has been a faculty member of the UF Department of Pathology, Immunology, and Laboratory Medicine for over two decades. He completed both his residency training in Anatomic Pathology and Neuropathology and fellowship training in Surgical Pathology at the University of Pennsylvania, followed by specialized training in pediatric neuropathology at the Philadelphia Children’s Hospital. Since joining the UF Department of Pathology in 1993, he has been an integral member of the faculty corps.

Over the course of his career, he has authored over one hundred publications, ranging from journal articles, book chapters, and entire books. In addition to his clinical and educational responsibilities, he has served on the editorial board for the Journal of Neuropathology and Experimental Neuropathology (1998–2003), senior associate editor for the publication Laboratory Investigation (2003-2008), and has been a current Associate Editor for Histopathology. He has served on the Executive Council of the American Association of Neuropathologists, and was president of the organization from 2013-2014.

Academic pursuits aside, Dr. Yachnis is a veritable pillar of the college and department’s community. His dedication and passion for education, both for residents and medical students, are exemplary, and are echoed by the many educational accolades he has earned over the years, from Basic Science Teacher of the Year, to Pathology Resident Educator of the Year, to Most Valuable Professor in Pathology. Dr. Yachnis is additionally one of the most sincere, gracious, and welcoming faculty mentors in the department.

As Program Director, Dr. Yachnis continues Dr. Carter’s initiative of personalized guidance to his residents, paying individualized attention to our progression through ACGME milestones during our half-year evaluations, as well as regularly scheduled meetings during morning conferences. In conjunction with our new Associate Program Directors Dr. Jesse Kresak and Dr. Stacy Beal, Dr. Yachnis seeks to directly work together with residents to continue to improve the program. We count ourselves lucky to have Dr. Yachnis as our new captain, and look forward to continuing to build the future of the program with him!
Dr. Jesse Lee Kresak: 
Associate Program Director, AP

Dr. Kresak takes on the mantle of AP Associate Residency Program Director in this new chapter of our residency program. After completing her medical school (2010) and pathology residency (2012) training at the USF College of Medicine, she joined our department as our Neuropathology fellow (2012-2014), where she soon became an integral member of what is now the legendary Neuropath faculty trio. We were fortunate to keep her on as faculty in 2014, and since the start of her career as faculty, she has been a staunch resident advocate and mentor, providing guidance and support to many residents in both research endeavors and service-related education. With Dr. Kresak in a formal role of program directorship, we can look forward to a future of strong guidance and leadership by example.

Dr. Stacy Beal: 
Associate Program Director, CP

Taking up the banner for Clinical Pathology, Dr. Beal enters into the role of CP Associate Residency Program Director. After completing her medical school training at the University of Florida College of Medicine (2008), she went on to complete pathology residency training (2012) at Baylor University in Dallas, TX, and a Clinical Microbiology fellowship at the University of Texas Southwestern Medical Center (2013). Upon completion of training, she served as medical director of the Microbiology Laboratories at Baylor University Medical Center. She returned to the University of Florida College of Medicine to become an Associate Medical Director of the Microbiology Lab in the Department of Pathology in 2014. As a member of the faculty corps, Dr. Beal has been instrumental in facilitating resident clinical pathology education and involvement in laboratory participation, additionally serving as a faculty mentor to resident research activities. As associate program director, she has already demonstrated a firm commitment to resident development, lending her advice and attention to our milestone accomplishment. We greatly look forward to working with her.
Together, we collectively sincerely thank Dr. Al-Quran for his service as director of the Surgical Pathology fellowship now as he departs for the University of Louisville in Kentucky, and we welcome Dr. Gonzalo as he next takes on the mantle of this new role!

Dr. Gonzalo joined as faculty in the department in 2013, quickly becoming an integral member of the GI pathology unit as well as a dedicated teacher and mentor to residents and fellows. In 2014, Dr. Gonzalo stepped into departmental leadership as associate director of the GI fellowship program. As the new head of the Surgical Pathology fellowship, Dr. Gonzalo brings with him great energy and enthusiasm for education and training for residents and fellows alike. We look forward Dr. Gonzalo’s leadership and expertise as captain of this fellowship program!

Coming to us as faculty from the eminent Cleveland Clinic, we are excited to announce Dr. Xiuli Liu as the new director of the GI Pathology fellowship program! Dr. Liu brings with her a wealth of experience in clinical medicine and anatomic pathology, a robust research mission, and a dedication to resident and fellow education. Already in her relatively brief time with us, her didactic scope sessions have been immensely valuable to the residency corps, and she is quickly becoming a research mentor for residents. We look forward to her leadership and direction as director of the GI unit and fellowship!
Dr. Edward Wilkinson has served as a pillar of the University of Florida Department of Pathology, Immunology, and Laboratory Medicine for 36 years. Throughout his time in the department, he has served an exemplary leader and mentor. Although he retires from clinical service on June 28, 2016, he will remain active in the department in a research capacity.

Dr. Chen Liu departed from the department as a respected leader of the Gastrointestinal Pathology unit of the University of Florida Pathology Department to serve as Chair of the Department of Pathology & Laboratory Medicine at both Rutgers New Jersey Medical School and Rutgers Robert Wood Johnson Medical School.

Dr. Christopher Carter joined the Nationwide Children’s Hospital in Ohio this year. During his time as resident, fellow, faculty and residency program director, Dr. Carter served as trusted colleague, leader, and friend to all in the department.

Dr. Layla Alizadeh departed this spring to join a private reference laboratory practice in Maryland. During her time as faculty and assistant residency program director, she led residents and fellows alike by instruction and example, always having an open door and ear for her trainees.

Dr. Samer Al-Quran headed to the University of Louisville in Kentucky. He served most recently as director of the Surgical Pathology fellowship program and associate director of the Hematopathology fellowship program. During his time with us, he additionally served as a faculty linchpin in the Anatomic Pathology department, signing out for the GU, Breast, and ENT services as well as the Hematopathology service. He will be missed as a faculty teacher and mentor.
**Fond Farewells**

Dr. **Wonwoo Shon** departs from our department as Dermatopathology faculty to join the Cedars Sinai Medical Center in Los Angeles, California. During his time with us he served as a teacher and research mentor to many residents.

Dr. **Ethan Stoll** embarks to Texas to join Community Pathology Associates, a private practice associated with the Baylor College of Medicine, providing general pathology (AP/CP) services to community hospitals in the Houston area. During his time in our department as resident, fellow, and faculty, he was a valued colleague and teacher and will be greatly missed.

Dr. **Martha Burt** departed from us as director of the UF autopsy service and a medical examiner for the District Eight medical examiner’s office in Gainesville. She joined the Clark County Medical Examiner’s Office in Vancouver, Washington over the summer of 2015. During her time as autopsy service director, she was a valued teacher of forensic pathology among the residents, and is remembered by many of us as one of the first faculty with whom we worked as first year residents. Her timeless etching of Beatle’s lyrics remains on the door of the first year resident’s office to this day.

Dr. **Nancy Hardt** retired as faculty in the autopsy service over the summer of 2015. She will be missed and fondly remembered as one of the first faculty with whom we worked with as first year residents, and will also be remembered as a director of the UF Mobile Outreach Clinic. We are fortunate in that she will remain active in serving with community work such as the Southwest Advocacy Group.
Fond Farewells

Kerwin Kolheffer concluded his time with us in January 2016 as one of our fearless Pathologist’s Assistants to join the Eastern Virginia School of Medicine as faculty, becoming involved the education and training of health professional students in gross anatomy and pathology. His philosophical soliloquies and grossing expertise will be greatly missed.

April Engstrom departed from the department in August 2015 to join the University Of Pittsburgh Medical Center as a senior Pathologist’s Assistant. Her sense of humor and steady hand in the gross room will be greatly missed.

Cathy Shaw retired as administrative assistant to the Autopsy service on February 26, 2016 after 31 years with UFH-Shands. We will miss you Cathy!
Dr. Wendy Stroh joins our department as our new director of the autopsy service. She completed her medical training at the University of New England College of Osteopathic Medicine (1984), subsequently completing her AP/CP residency training at the Naval Medical Center San Diego, in San Diego, California (1996). After working as a surgical pathologist from 1996 to 2006, she completed her training in Forensic Pathology in 2007 at the Office of the Chief Medical Examiner in Richmond, Virginia, and has worked as a forensic pathologist from 2007 until the present. Her personal interests include horseback riding, dancing, and old movies.

Dr. Xiuli Liu joined our department this year as our new director of the GI/Liver Unit and Fellowship program. Dr. Liu completed her medical school education at Beijing Medical University (1990), and subsequently completed Internal Medicine residency at Dalian Medical University in Dalian City, China (1994). She earned a Master of Science (1997) as well as a PhD (2002) at the University of Arkansas for Medical Sciences. She completed her pathology residency training and subsequently her GI pathology fellowship training at the University of Alabama at Birmingham. Following her training, she joined as faculty at the Anatomic Pathology Department of the Cleveland Clinic Medical Center & Lerner College of Medicine. Dr. Liu is an accomplished and prolific researcher and academician, having published over 100 peer-reviewed articles over the course of her career, with a focus on the subtleties of gastrointestinal and hepatopancreatobiliary pathology. We are fortunate and excited to work with Dr. Liu and continue to build our GI program with her!
New Faculty Members

**Dr. Kristianna Fredenburg** joined the faculty corps this past year as surgical pathology faculty specializing in ENT and Pulmonary pathology. Originally from Nashville, Tennessee, she completed her medical school training at the University of North Carolina at Chapel Hill before joining the UF Department of Pathology as a resident. She subsequently stayed on to complete a year of Surgical Pathology fellowship, followed by a year of specialized training in ENT and Pulmonary pathology. As a physician scientist, she balances her faculty clinical duties with research. In her free time, she loves spending time with her husband and three children, Abigail, Mia, and Henry!

**Dr. Ashwini Esnakula** joined our surgical pathology faculty this year. After completing his medical training at Kasturba Medical College in Mangalore, India (2006), he went on to complete a master course in tumor biology at Georgetown University in Washington D.C (2007). He completed his residency training at Howard University Hospital in Washington D.C. (2013), and subsequently completed a surgical pathology fellowship at Barnes Jewish Hospital and Washington University in St. Louis (2014). He subsequently completed a GI fellowship at the Cleveland Clinic in Cleveland, Ohio (2015) before joining the UF Department of Pathology as faculty. We look forward to working with Dr. Esnakula for years to come!

**Dr. Ethan Stoll** joined the faculty corps this academic year as surgical pathology faculty. Originally from Columbus, Ohio, he completed his medical school training at the Lake Erie College of Osteopathic Medicine in 2010. He subsequently joined the UF Department of Pathology as a resident, completing his residency training in 2014 and fellowship training in Surgical Pathology in 2015. His personal interests include travel, fishing, brewing beer, tennis, and walking his dog.
New Faculty Members

**Lindsey Kenny** joined our department this year as a Pathologist’s Assistant. Lindsey hails from Big Rapids, Michigan, and completed her undergraduate training at Armstrong Atlantic State University in Savannah, Georgia, in 2009, majoring in Biology and Chemistry. She completed her post-graduate training at Quinnipiac University in New Haven, Connecticut, in 2012. Lindsey has a deep love for music, both as a listener and musician, rocking out on her keytar in her free time. Additionally, she enjoys watching movies, traveling, and playing with her two chinchillas, Miku and Misa.

**Leigha Turcott** joined our department this year as a Pathologist’s Assistant. Originally from Mulberry, Florida, she completed her undergraduate education at the University of South Florida with a degree in Medical Technology in 2011, and completed post-graduate training at West Virginia University in 2014. Her hobbies include playing with her dog Lily, going to the beach, and enjoying the great outdoors.
First Year Residents

**Vektra Casler** is from Grand Rapids, Michigan, by way of medical school in Detroit. Her job history includes stints as security guard, graphic designer, accounting, insurance sales, Comcast cable repair technician, long distance truck driving, tutor, chemistry lab instructor, and teacher. After taking a Human Anatomy course at Grand Rapids Community College, she was hooked, leading her to Wayne State University School of Medicine, where she graduated in 2015. Her personal interests include anything computer or crafting related, having built her own home-built computer simulator rig.

**Danielle Harrell** is from Maynardville, Tennessee, a small town outside of Knoxville and completed her undergraduate studies in microbiology at the University of Tennessee-Knoxville. She completed her medical school training at DeBusk College of Osteopathic Medicine in 2015. Her hobbies include spending time with her husband and children with four legs (two dogs and a cat) as well as keeping active in the form of running, yoga, and biking. She enjoys playing trivia and board games with friends and is interested in experimenting with new foods and recipes.

**James Isom** is from Washington, DC and completed his major in Electrical Engineering with a minor in Microelectronics Engineering at Virginia Tech in 2008. He completed his medical school training at the Medical College of Georgia in 2015. His interests include cooking (and eating), exercise, and travel. He plans on completing another marathon during the upcoming year as well as travelling to Morocco. Recently, James became engaged, so he is also planning a wedding with his fiancée.

**Elham Nasri** is from Esfahan, Iran, and completed her medical school training at the Esfahan University of Medical Science in 2011. Her Interests within Pathology include General Surgical Pathology as well as Bone and Soft tissue Pathology. In her free time she enjoys yoga, cycling, reading, gardening, Persian literature, and playing tennis.
A Nod to Our Seniors

With pride and fondness we graduate our senior residents! Michael Chang and Yanfei Huang will stay on as our GI Fellows next year. Carlos Diez Freire will join UF Health Jacksonville for a Cytopathology Fellowship. Wendi O’Connor will head to Washington University in in St. Louis for a Surgical Pathology fellowship. Andrea Duque will head to a Blood Bank fellowship in UF Health Jacksonville.
Dr. Katherine Phillips’ Floridian hometown is DeBary; however, before she was a Floridian, she spent time growing up in both Japan (ages 1-8) and Germany (8-16). She completed her undergraduate training at Florida State University in 2006 with a major in Biology and minor in Chemistry. She joined the University of Florida community first to complete her medical school training (2011) and proceeded to stay on to complete her residency training (2015), serving as a chief resident during her residency tour of duty. She is currently completing her fellowship training in Cytopathology here at the UF Department of Pathology, after which she will take her talents to a private practice position in Grand Junction, Colorado. In her personal time, her hobbies include biking, staying active, and spending time with her family.

Dr. Michael Feely is from Buffalo, NY, and completed his medical school training at Nova Southeastern College of Osteopathic Medicine. He joined the University of Florida Department of Pathology for his residency, serving as chief resident in his time, and graduating in 2015. He stayed on with us as a GI Fellow for the 2015-2016 year, and we are fortunate to keep him as faculty upon completion of his fellowship training.

Dr. Kent Newsom is from Valparaiso, Indiana, and completed his undergraduate degrees in Business Finance and Pre-Med at the University of Florida in 2002. He completed his medical school training at Nova Southern University in 2008, and after some time in the wilds of Surgery Residency, he came to his senses and completed Pathology residency at the University of Florida Department of Pathology in 2015. We were fortunate to keep him for an additional year as a GI Fellow. Upon completion of fellowship training, he will be joining a private practice in Hilton Head Island, South Carolina. His interests include unpacking the subtle complexities of wine as a certified wine specialist, running, golf, and travel.
Current Fellows

Dr. Dianne Torrence was born in Bridgetown, Barbados in the West Indies, and earned her Bachelors of Medicine and Surgery at the University of West Indies in 2004. She joined General Surgery residency, and after coming to her senses, subsequently joined and completed Pathology residency training at the Yale School Medicine. She completed a fellowship in Oncology and Surgical Pathology at the Memorial Sloan Kettering Cancer Center in New York. She joined the UF Department of Pathology in 2015 as our Bone and Soft Tissue Pathology Fellow. Her personal interests include travel.

Dr. Jack Wilson hails from Winter Park, Florida, and completed his Bachelor of Science at Auburn University in 1985. He completed his medical school training at the University of Alabama School of Medicine in Birmingham (1989), and a residency in OB/GYN at the University of South Florida in Tampa, Florida (1993), before finally seeing the light and completing his Pathology Residency at the Orlando Health Department of Pathology in 2015. He is currently completing his fellowship training in Hematopathology here at the University of Florida Department of Pathology. In his free time, his interests include reading and spending time with his family.

Dr. Meggen Walsh was born in Willingboro, New Jersey, and earned her undergraduate Bachelor of Science at DeSales University in Pennsylvania in 2001, and earned her Master of Science in 2002, after which she practiced as a neurosurgical Physician’s Assistant. She graduated from Lake Erie College of Osteopathic Medicine in Pennsylvania in 2011, after which she completed her Pathology Residency at the University of Kentucky in 2015. She joined the UF Department of Pathology in 2015 as our Neuropathology Fellow, and remains an active member of the College of American Pathologists.

Dr. Bhavesh Papadi is originally from Chennai, India, and completed his medical school training at the Madras Medical College in Chennai in 2004. After graduation he subsequently joined Internal Medicine for 3 years at the Queen Elizabeth the Queens Mother Hospital, Margate, in Kent, United Kingdom. He completed his Pathology residency at the University of South Alabama in Mobile, Alabama in 2012. His personal interests include exploring the outdoors, kayaking, snorkeling and learning to surf.
We had the pleasure of hosting **Bharat Nathwani, MD** as our first guest speaker of the academic year on January 11, 2016. Dr. Nathwani is a world-renowned expert on lymph node pathology with over 100,000 cases-worth of experience over the course of his career, and is currently Hematopathology faculty at the City of Hope Hospital in Duarte, California.

Dr. Nathwani completed his pathology residency training at the Grant Medical College in Bombay, India in 1972, subsequently coming to the United States for additional training. He spent a decade at the City of Hope Medical Center in Duarte, California, working with Dr. Henry Rappaport. In 1984, Dr. Nathwani was appointed full professorship as pathology faculty with tenure and Chief of Hematopathology at the University of Southern California, Keck School of Medicine in Los Angeles, where he practiced for 25 years.

Dr. Nathwani subsequently returned to the City of Hope Medical Center in Duarte, CA, serving as professor of pathology and Director of Pathology Consultation Services. In addition to an esteemed diagnostic career, Dr. Nathwani has led a robust research career, serving as Principal Investigator to R01 Grant-funded supported by the NIH/NCI, and has authored 170 publications over his career. Additionally, he has given over 300 lectures, seminars, and workshops domestically and worldwide.

Dr. Nathwani started his visit to the University of Florida with a morning lecture series for the residents on the morphologic approach to the diagnosis of lymphoma, and gave a Grand Round talk at noon for the entire department. Lunching with the residents and fellows, he shared his insights and wisdom on the makings of a satisfying career and the future of Pathology.
Lester D.R. Thompson, MD visited our department on April 11, 2016. As a leader in the field of Head, Neck, and Endocrine Pathology, Dr. Thompson currently serves as an expert consultant for the Southern California Permanente Medical Group in Woodland Hills, California.

After completing his medical school training at Loma Linda University (1988), he underwent residency training in Orthopedic Surgery at the Loma Linda University Medical Center (1989) before completing his pathology residency training at the University of California Los Angeles (UCLA) in 1993 and earning board certification in Cytopathology in 1996. Dr. Thompson is additionally an honorably retired Captain in the United States Navy Reserve Medical Corps, with a distinguished and decorated service record. In addition to earning the Defense Meritorious Medal, an honor bequeathed to members of the United States Armed Forces who have distinguished themselves by non-combat meritorious service in leadership positions and performing exceptionally outstanding work (third highest peacetime Defense award), he is also expert marksman as recipient of the Navy Expert Rifleman and Pistol Shot Medals. In addition to diagnostic work and military service, Dr. Thompson is author to more than 250 professional publications, and has authored and co-authored of eight books in the specialization of Head and Neck Pathology.

Dr. Thompson began his visit to the University of Florida with a riveting resident Unknowns Case Conference session, covering an array of entities in Head, Neck, and Endocrine Pathology. Following an informal lunch with residents and fellows, he gave an afternoon Grand Rounds lecture series for the department, covering diagnostic topics ranging from human papilloma virus-associated malignancies of the oropharyngeal tract, to clarifying the new categorization of Non-invasive Follicular Thyroid Neoplasm with Papillary-like Nuclear Features (NIFTP).
This year, our June 11, 2016 Resident Research Day keynote speaker will be Stuart J. Schnitt, MD. Dr. Schnitt is an internationally recognized expert in the arena of Breast Pathology, and is the Director of the Division of Anatomic Pathology at Beth Israel Deaconess Medical Center, co-leader of the Dana Farber Harvard Cancer Center Breast Program, and a Professor of Pathology at Harvard Medical School. After completing his pathology residency training as well as fellowship training in Surgical Pathology at the Beth Israel Hospital in Boston, Massachusetts, he has gone on to build a preeminent career, serving as president of the United States and Canadian Academy of Pathology (2010-2011) and leading a robust academic mission, publishing over 300 professional articles, reviews, editorials, commentaries, and book chapters in the specialization of Breast pathology, including seminal contributions as an editor of the fourth edition of the World Health Organization Classification of Tumours of the Breast (2012). His research interests include clinically and epidemiologically-correlated studies examining risk factors for malignant recurrence in patients with invasive breast carcinoma and ductal carcinoma in situ treated with breast-conserving therapy, as well as examining risk factors for breast malignancy in women with benign breast disease, and factors underlying breast tumor progression. We are fortunate to host Dr. Schnitt this coming Research Day, and look forward to meeting him and benefitting from his expertise!
**HONORS AND AWARDS**

**Dr. Michael Chang** won the 2015 Duel in Dermatopathology Award for his presentation, “ETV6 Gene Rearrangement in a Mammary Analogue Secretory Carcinoma of the Skin,” at the American Society of Dermatopathology (ASDP) conference.

**Dr. JT Kim’s** “Malignant TFE3-rearranged perivascular epithelioid cell neoplasm (PEComa) presenting as a subcutaneous mass” won the ASDP’s Physician-in-Training Award for the meeting’s poster abstract session.

**Dr. Elham Nasri** was awarded first place for her poster presentation, “Tumorigenic and Non-Tumorigenic Osteosarcoma Cell Subpopulations Exhibit Distinct MiRNA Expression Profiles,” at the Florida Society of Pathologists conference in February 2016, Orlando, Florida. She earned the third place poster presentation award at the Musculoskeletal Tumor Society and International Society of Limb Salvage combined meeting (MSTS-ISOLS), October 2015, in Orlando, Florida for her research. Additionally she won the Outstanding Resident Educator Award, Society of Teaching Scholars, University of Florida, March 2016.

**Dr. Carlos Diez Freire** completed the RAST (RESIDENTS AS TEACHERS) longitudinal course. His publication, “Brain Microglial Cytokines in Neurogenic Hypertension,” reached 541 citations this year.
NEW ARRIVALS

Phoebe Ann Chang was born on February 27th, 2016, to Michael and Liz Chang

Valerie Yiyi Yuan was born on March 4, 2016, to Yanfei Huang and her husband.

Ivan Alberto Tulla-Rivera was born on October 12th, 2015 to Dr. Marie Rivera and her husband Luis Tulla

Elsie June Beal was born on February 13, 2016 to Drs. Stacy and Casey Beal

Amitha Papadi was born on December 20th, 2015 to Bhavesh Papadi and his wife

Noah Mark Hiser was born on May 23rd, 2015 to Wes and Ashley Hiser
Engagements

Sarah Jansen & James Isom were engaged at Cathedral Grove in Muir Woods on April 4th of 2016.

Congratulations Sarah and James!
